Logistics and local secretariat

The Procurement & Project Delivery System Research Unit and the Department of Quantity Surveying, Kulliyah of Architecture & Environmental Design (KAED), IIUM

BACKGROUND AND SCOPE

The 5th International Conference on Multinational Joint Ventures for Construction Works aims to promote research and development and to provide an international platform for practitioners and researchers to discuss various subjects in the area of multinational joint ventures. The Conference will build on the work of the previous conferences but with an urgent agenda, given the critical nature of the current global economic environment.

This year's event also incorporates the inaugural Conference Construction in the Muslim World. The key aim of this Conference is to draw attention to the importance of construction in developing Muslim economies especially in the context of promoting and sustaining socio-economic growth and development.

The 2nd CLECAP Conference focuses on construction education & training needs for the Asia & Pacific region.

OBJECTIVES

Key objectives of the conference are:

- To explore recent theoretical advances in JV for construction works
- To discuss new concepts and paradigms in JV schemes in a high risk economic climate
- To create awareness on the importance of construction to the Muslim economies
- To discuss construction education & training needs for the Asia & Pacific region

WHO SHOULD ATTEND THE CONFERENCE?

- Trainers, educators and researchers in architecture, construction, engineering, quantity surveying, economics, finance, law, management etc
- Contractor and project managers
- Civil servants, owners and facilities managers
- Construction consultants and others
- Financiers, bankers, lawyers and policy makers
- Students and others.
