The International Symposium on
**Urban Geoengineering, Earth
 Resources and Sustainability in the
 Context of Climate Change**
 22-23 November 2010 - Hanoi, Vietnam

INTRODUCTION

Hanoi Geoengineering 2010 continues on the basis of the 2003, 2004, 2005 and 2007 *Hanoi GeoEngineering*, which has become a traditional and familiar international symposium, jointly organized by Vietnam National University, Hanoi (VNU) and Asian Institute of Technology (AIT) in close collaboration with other overseas and national partners. The symposium is aimed at developing the better collaboration between overseas and Vietnamese engineers and scholars.

Theme of the Hanoi Geo-Engineering 2010 Symposium is "Urban Geoengineering and Sustainability in the Context of Climate Change". With an unprecedented booming and expansion of urban areas in Vietnam in the early 21st century the activities related to education, and research in geological, geotechnical, geoenvironmental and geophysical engineering have to be more promoted and active to meet the needs of the country of today and in future.

Besides the presentation and discussion of papers, the symposium invites the professionals and the industry to participate in the following:

- ◆ Co-sponsorships
- ◆ Desktop exhibition
- ◆ Advertisements
- ◆ Souvenirs and gift sponsors

CALL FOR PAPERS

Symposium Theme:

'Urban Geoengineering, Earth Resources and Sustainability in the Context of Climate Change'

Symposium Major Topics:

- ◆ Geotechnical Engineering & Urban Infrastructure Development
- ◆ Earth Resources and Environment
- ◆ Geohazards and GeoRisks
- ◆ Human and Energy Security Engineering
- ◆ Geoproduction and Petroleum Engineering
- ◆ Vulnerability Assessment and Risk Management of Climate Change

Submission of ABSTRACTS of about 200 - 300 words is now invited from AUTHORS. Abstracts and papers should be in English.

Please note that it is part of the requirements of submission of abstract that the Author or one of his/her co-authors will present the paper at the workshop, either orally or as poster, and that all papers to be included in the workshop documentation must be registered.
