Purpose

The 5th International Conference on Crisis and Emergency Management was held at Uji Campus, Kyoto University on 24th and 25th September 2011. Following the last conferences, the main objective of the conference was to create a platform for researchers and practitioners to discuss various issues, challenges and possible solutions in the field of Crisis and Emergency Management. Several distinguished personnel of academia, planning and Management mainly from Japan, China, Korea and USA gathered to achieve the objective.

The Eastern Japan Earthquake and Tsunami Disaster have left the year 2011 a tough time to cope to people in Japan. Despite of the fact, it has left an opportunity not only to Japan but also to the rest of the world to learn from the experience and to come up with more imaginative, creative and implementable plans to deal such disasters. Emphasizing the fact, the conference aimed to cover following specific topics in addition to the other general topics in Crisis and Emergency Management:

- A broader framework for crisis and emergency management: Integrated Disaster Risk Management and Governance as a possibility
- Lessons to be learnt from Fukushima nuclear accidents

Achievement and Results

The conference inaugurated with welcome addresses from Professor Norio Okada, Professor Hirokazu Tatano and Professor Eiichi Taniguchi. During the address, Professor Taniguchi introduced the Kyoto University, GCOE-HSE project. Disaster being a big question mark to human safety, importance of such conferences on Disaster Management to improve safety mainly from Mega-Cities perspective was also highlighted.

The conference covered several topics in Crisis and Emergency Management in the form of presentations and discussions. 4 keynote speeches, a lunch-on lecture and a total of 31 presentations under eight sessions: I. Collaborative session of disaster prevention planning research meeting and ICCEM, II. Global critical infrastructure, III. Parternership and resiliency of society, IV. Crisis and emergency management, V. Social capital and communication, VI. Law for safety, VII. Disaster education, citizen initiatives, and participatory approach, and VIII. Recovery and restoration were made. Audience enjoyed presentations in the sessions and lively questions and discussions were carried out after each one. Following its effectiveness in the present year, the organizers emphasized the necessity of frequent organization of such events and closed the conference looking forward to meet in the forthcoming one.

目的・概要

第 5 回危機管理に関する国際会議が、2011 年 9 月 24-25 日に京都大学宇治キャンパスにて開催された。本会議は、従来の会議の流れを引き継ぎ、危機管理の分野に様々な問題、取り組み、考え得る方策について議論し、研究者と実務家の間で共通の枠組みを作り上げることを目指している。こうした理念の下、計画論やマネジメント論に優れた人材が日本、中国、韓国、アメリカから集まった。

2011 年に発生した東日本大震災により日本は大変過酷な状況にさらされたが、日本だけでなく他の国にとってもこの経験から教訓を得て、創造的かつ実行性のある計画に結び付けることができる。実際の出来事を重視するため、一般的な危機管理に加えて、以下のような話題を含めることを目指している。

- ・危機管理のための幅広い枠組み:起こり得る総合的な災害リスクマネジメントとガバナンス
- ・福島原発事故から得られる教訓

得られた成果

会議では、岡田憲夫先生、多々納裕一先生、谷口 栄一先生より、歓迎の挨拶が述べられた。歓迎の挨 拶において、谷口先生より GCOE-HSE プログラムの 紹介がなされた。会議では、今回の災害により人間 安全保障に対して、大きな課題を突き付けられたこ とに触れて、メガシティの観点から安全に取り組む 危機管理の会議の重要性が強調された。

会議では、4件の基調講演と8セッションに分かれた31の発表がなされ、活発な議論が行われた。

主催者は、今年の効果が続くように、このような会議の重要性を説き、しばしば行う必要があることを強調した、次回の会議で再会できることを楽しみに会議を終えた。
