

New submission method for HSE Program Portfolio

We have launched an e-portfolio system called STEP that replaces the paper HSE Portfolio that we have been using so far.

So, please access to the following URL using your student number or ECS-ID and fill out all forms you can fill out now.

<https://kar.gakusei.kyoto-u.ac.jp/portal/login/>

We will ask your supervisor to check it and certify what you fill out.

Please use "STEP", even if you were indicated to use paper portfolio at the guidance for new students.

To be more concrete, although you were requested to fill out the HSE Portfolio in the form of HSE-003 (for Doctoral Course) and HSE5-003 (for Master Course) and submit it to your supervisor at the HSE guidance on April 6 for the HSE students enrolled this April, you no longer need to submit paper HSE Portfolio because we succeeded in introducing this e-portfolio system "STEP" earlier than expected.

As for HSE students who enrolled in October last year, you may have already submitted the paper HSE Portfolio, but please fill out this STEP form again.
